

RECYCLE OFTEN.
RECYCLE RIGHT.™

EASY WAYS TO IMPROVE YOUR RECYCLING SKILLS.

It's amazing how easy it is to recycle. But it's also easy to recycle incorrectly. Not everything can be recycled. And when you recycle items that should not be recycled, it can cause issues at the recycling facility and could contaminate other items in that batch.

SO LET'S LEARN HOW TO RECYCLE RIGHT.

Here are some basic rules to follow when recycling:

**NO BAGGED RECYCLABLES,
LOOSE PLASTIC BAGS OR
PACKAGE WRAP**

**NO LIQUIDS OR
SOGGY ITEMS**

**NO FOOD OR CONTAINERS
WITH FOOD STILL IN THEM**

**NO GLASS IN YOUR
CURBSIDE RECYCLING BIN**

Following these simple rules can help you become an expert recycler.
Share new knowledge with your friends and neighbors.

**TOGETHER,
WE CAN MAKE THE WORLD A BETTER
AND GREENER PLACE**
